Use with Plastic or Steel 5 Gallon Pails

STEEL PAIL PAL (PAIL OPENER)

A must-have product for anyone using five-gallon pails. For use on plastic and steel pails. The cutter is used to cut the slit in the lid lip of the pail to enable the lid of the plastic pail to be removed. The side guide tong conveniently slides under the lid lip for easy removal of the lid. The end hook is used to open steel pails. Just hook the lid lip and rotate. The opposite end is used to close the pail by bending the lip back around the pail top.
