

Fork Mounted Front Loaders

SECURE TO FORK TRUCK AND AWAY YOU GO!

Low Profile "Dust Pan" Design

90 Degree Dump Angle Similar to Self-Dumping Hopper

Model FL-4000

The **Front Loader** is engineered for use with your existing fork truck. "Dust Pan" design is ideal for transporting snow, gravel, sand or refuse. Fabricated from steel with leak-proof welds. Attaches quickly and easily to most fork trucks. Beveled front edge for better scooping ability. The fork pockets measure 7-1/2"W x 2-1/2"H on 24" centers. Durable powder coat finish.

Operation: Drive into Front Loader; Secure unit to fork truck mast with safety chain; Run release cable to fork truck driver; Drive Loader into the material your transporting; Drive to destination; Raise forks and pull release to dump load; Unit returns to locked upright position when set down on ground.

Model Number	FL-4000
Overall Size	69-3/4"W x 62-5/8"D x 22-9/16"H
Capacity (pounds)	4,000
Dump Angle	90°
Cubic Yard Capacity	1-1/3

Snow Plow Blades for Fork Trucks

Designed for use with your fork truck, these **Snow Plow Blades** are multifunctional to work with your existing equipment. No more waiting for daytime snow removal, simply place the snow blade onto your fork truck and away you go! Prevent damage from obstacles and rough or uneven surfaces with trip springs. Easy angling and backgrade abilities for optimal performance.

Constructed of 1/4" rollplate with steel rigs. The cutting edge is 5/8" x 6" hardened steel. The plow width is 6 feet with an effective plowing width of 66" (at 24° angle) and 48" (at 47° angle). Fork pocket widths available are 5-1/2" (SPB-548) or 7-1/2" (SPB-748).

Counterweight, 7 foot plow width and special fork pockets available.

Series SPB

pictured with optional counterweight
